

Order Form Records Retention Manual

You Get More Than Retention Periods

The manual contains a vastly expanded discussion of legal considerations for records retention, including information on the statutes and regulations. It is available in PDF format which is downloadable from the MBA website. Updates will be produced as needed and emails will be sent out automatically to every subscriber. There is a small fee for the updates.

A Practical Guide to Records Retention

The Minnesota Bankers Association Records Retention Manual has been provided to Minnesota banks since 1942 with a completely revised version in 2015.

With the ever-increasing volume of records being accumulated by all banks, it is imperative that realistic retention schedules be adopted. This manual was developed by a task force of Minnesota bankers and attorneys to be used as a guide in developing such a retention program.

How to Order

The manual is available to MBA members for \$100.00 and eligible non-members for \$200.00 plus sales tax.
